

## SUTTLE

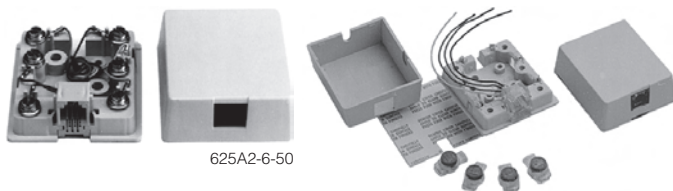

625A4

### 625A4 AND 625A6 JACK ASSEMBLIES

The 625A series of surface mount jack assemblies features the 625C cover which includes an integral modular jack equipped with spade tipped leads, allowing quick connections and eliminating stripping and wrapping of wires. A captive retaining screw keeps the cover securely fastened, preventing damage to the assembly. When connected to an 020031 (4 conductor) or 020045 (6 conductor) terminal block, creating the 625A4, it converts the existing installation to accept modular plug-ended line cords. Threaded brass inserts on the terminal screws and washered screw terminals increase reliability and provide positive long-lasting connections. The 625A series is designed for mounting on baseboards, walls or other flat surfaces. All are CSA and UL certified.

Cat. No.	Description	Conductor	Colour	Net Price
625A4-44	Jack Assembly	Four	Ash	\$2.61
625A4-50	Jack Assembly	Four	Ivory	2.61
625A6-44	Jack Assembly	Six	Ash	3.24
625A6-50	Jack Assembly	Six	Ivory	3.24

625A2-6-50

625A2-4NS-50-RC

### 625A2-4 AND 625A2-6 JACK ASSEMBLIES

The 625A2 series of surface mount jack assemblies features the labor saving advantage of a snap-on cover. They are available in Suttle's *CorroShield*® line for hostile environments. With the *CorroShield* models, the leads are either prewired to the screw terminal base, or are blunt cut for applications requiring gel-filled splice connectors. A double-sided adhesive pad is provided in the package, enabling mounting on desks, filling cabinets or other surfaces where conventional mounting could be objectionable. All of the 625A2 series of surface mount jack assemblies are CSA and UL certified.

Cat. No.	Description	Conductor Termination	Colour	Net Price
625A2-4-50	Jack Assembly	4 Screw	Ivory	\$2.07
625A2-6-50	Jack Assembly	6 Screw	Ivory	2.52
625A2-4-50RC	CorroShield Jack Assy	4 Screw	Ivory	5.76
625A2-6-50RC	CorroShield Jack Assy	6 Screw	Ivory	6.48
625A2-4NS-50RC	CorroShield Jack Assy	4 Splice	Ivory	6.30
625A2-6NS-50RC	CorroShield Jack Assy	6 Splice	Ivory	9.20

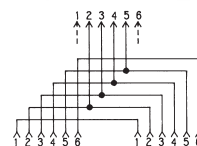

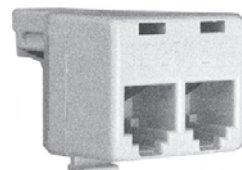

NOTE: For other colours substitute -50 with -52 Electrical Ivory or -85 White.

### 630AP JACK PLATE

The 630AP Jack is an all plastic universal wall plate. Packaged with mounting lugs for use with modular wall telephones, the 630AP can also be used to connect desk telephones with modular plug-ended line cords. Screw terminals provide termination for station wiring. The 630AP has screw terminals for connection of station wire. Once connected, a snap on plate conceals and protects station wiring. The 630AP may be flush mounted in outlet boxes or directly to the wall with suitable fasteners.

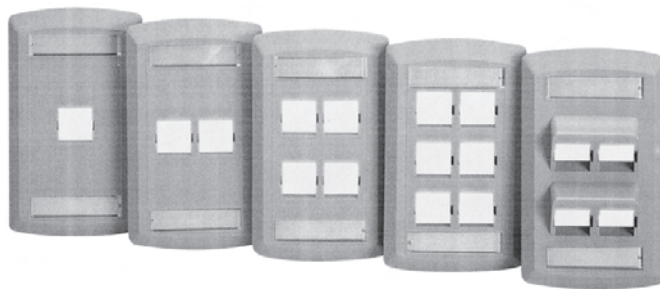

Cat. No.	Description	Conductor	Colour	Net Price
630AP4-50	Jack Plate	Four	Ivory	\$4.86
630AP6-50	Jack Plate	Six	Ivory	5.40

### 267A ADAPTER

The 267A4 Adapter ("2 for 1" or "T" adapter) is designed for use in connecting two telephones or associated equipment to an existing modular jack. This adapter permits quick connection of, for example, one telephone and one ancillary device equipped with modular, plug-ended line cords to the same outside line without changing the existing installation. The plug portion of the 267A4 is equipped with four contacts wired in parallel with the four spring-wire contacts of each jack. Ivory in colour.

Cat. No.	Description	Net Price
267A4-50	4-wire Adapter	\$5.49
267A6-50	6-wire Adapter	5.85

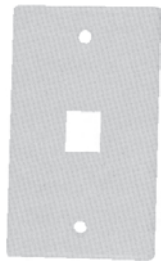

### SPEEDSTAR FACEPLATES

SpeedStar multimedia faceplates are available in one, two, four, and six port configurations in plastic or stainless steel. The versatile SpeedStar faceplates support our 2000 line and fit standard NEMA boxes and electrical faceplates. They install without any mounting brackets and can be equipped with spring-loaded trap doors. Comes with labels.

Cat. No.	Description	Colour	Net Price
<b>PLASTIC FACEPLATES*</b>			
STAR500S1-85	1-Port, Single Gang	White	\$1.53
STAR500S2-85	2-Port, Single Gang	White	1.53
