LENLINE CONTACT BURNISHING TOOL

A pocket size burnishing tool fitted in a handsome pen type case. It is of great value in keeping contacts on relays, solenoids, brushes, thermostats, and other electrical devices smooth and free from carbon-like deposits which would otherwise leave them inoperative. The microfine finish of the burnisher element assures mild, controlled cleaning action which polishes the surface as it cleans. Insulated case permits use on live contacts. Spare burnisher element and "Slim-Grip" burnisher included in the case. "Slim-Grip" insulating handle can be reversed when element becomes worn.
