

PANDUIT VIPER™ LS6 THERMAL TRANSFER PORTABLE PRINTER

FEATURES: Crisp 203 dpi thermal transfer printer for professional looking labels with no smearing. Automatically recognizes label size and adjusts printer settings to eliminate wasted setup time. Tracks number of labels remaining on the roll and warns operator if there are not enough labels on the roll to finish a print job. Nickel Metal Hydride battery provides battery life, is less susceptible to memory effect, and is more environmentally friendly. AC adapter included so you can start printing right out of the box. Internal overnight battery charger built into printer. Fast loading ribbon cartridge lets you slide, lock and go! —No difficult ribbon threading. 128K file memory reduces setup time by recalling frequently used labels. Large, ergonomic input keys are easy to find and manipulate. Rugged mechanical cutter—no need for scissors. Annunciator sounds after each key stroke to improve data entry speed and accuracy. Bi-directional feeding automatically feeds label forward for cutting and automatically reverse feeds to eliminate wasted label stock. Handy calculator function included. PCMCIA Card factory upgradeable. Size: H 6.2" x W 4.9" x L 13.8". Weight: 4.1 lbs. Display: 3.0" x 1.5" tall graphics screen display. Keyboard: 49 colour coded keys with ergonomically designed keypad.
