

ECOHEAT™ EC-100 HEAT GUN AND KIT

The durable, flameless EC-100 Ecoheat™ heat gun is ergonomically designed, lightweight and easy to use with temperature settings of 500°F (260°C) and 1,000°F (538°C). A built-in hand guard protects hands and fingers while a recessed switch guards against knocks and bumps. The EC-100 heat gun is UL and CUL certified and has a built-in stand for hands-free use in an upright position. The EC-100K heat gun kit includes Master's EC-100 Ecoheat™ heat gun, four specialized attachments and product manual packed in a rugged and convenient, plastic storage and carrying case. The specialized nozzles include a 7/8" air reducer, 1" heat shrink attachment, 1-15/16" and 3-1/8" spreader attachments.

Cat. No.	Description	Net Price
EC-100	Ecoheat™ heat gun	\$49.43
EC-100K	Heat gun kit with carrying case and attachments	65.52

MASTER-MITE AND MASTER-MITE HEAT GUNS HEAT GUN

The Master-Mite is a lightweight complete continuous duty bench-top heating system, equipped to perform jobs without the excess air flow. It comes standard with an adjustable stand and a heat shrink attachment. The air flow rating is 3.8 CFM 700 FPM. The adjustable stand allows the operator to work with both hands free. High impact plastic housing or ESD plastic housing, whisper quiet motor. ESD model has a conductive housing that will not build up or hold a static charge. Helps to shield against electromagnetic and radio frequency interference. Colour-coded elements snap-in and take only seconds to change. Seven foot cord. Size: 8 7/8" long x 7" high.

Cat. No.	Description	Net Price
10008	Heat gun comes complete with 475 watt, 800°F heating element, adjustable stand, and heat shrink attachment.	\$99.18
10012	ESD heat gun comes complete with 525 watt, 650°F heating element, adjustable stand, and heat shrink attachment.	159.59

COLOUR CODED HEATING ELEMENTS

20012	Blue, 340 watt, 500°F	30.88
20013	Silver, 475 watt, 650°F	30.88
20014	Black, 525 watt, 800°F	30.88

ADAPTERS

40060	Heat shrink attachment	7.00
40061	¼" Pinpoint Adapter	16.67

MASTER FLAMELESS HEAT BLOWERS

Where a heat gun is a hand tool designed for portability, a Master Hot Air Blower is designed for continuous, production line use. Rugged construction features a heavy-duty induction-type motor, a big 2" diameter nozzle and a three way switch for hot or unheated air. All models feature convenient handle and an adjustable base for 90° position flexibility.

Cat. No.	Temperature °F	Power in		Avg. Air Velocity/FPM	Net Price
		Amps	Watts		
AH-301	300	10	1200	1200	\$239.21
AH-501	500	14	1680	1200	248.65
AH-751*	750	18	2160	1130	239.21

NOTE: AH-751 AC plug is 20 amps, 2 pole, 3-wire grounded type with turned prong; see picture. All models are 120 VAC; 230V models available upon request.

MASTER MICROTORCHES

Completely portable, these torches are great for heating, light brazing, soldering, desoldering, and heat shrinking. All have a built-in safety lock, adjustable flame, refillable fuel tank, and water-resistant self-ignition system. Torches maintain a wind-resistant, sharp blue flame at temperature up to 2500°F (1300°C).

MT-51—A wide, stable base allows hands-free as well as hand-held use. Has an internal fuel tank and hands-free levers. Runs up to two hours on full tank of Master Ultratane butane fuel (sold separately).

MT-51H—Microtorch, table-top unit includes heat tip and 1" dia. shrink attach-
