

CUTTING/SHAPING WHEEL (CARBIDE) MANDREL INCLUDED

The cutting/shaping wheel's unique design gives you the ability to cut and shape on soft and hard woods. Use the wheel on its edge for cutting and slotting. Use the "face" of the wheel for shaping. Both sides are finished so it cuts and finishes in one operation. Applications: fiberglass, plastics and laminates. Do not use on metals. Coated with tungsten carbide grid for long life.

Cat. No.	Net Price
542	\$17.77

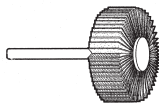

540

CUT-OFF WHEEL

Cut-off, groove and trim metals, woods and ceramics. Use with Mandrel 402. **Dimensions:** 1 1/4" diameter by 1/16" thick.

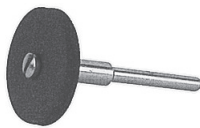

Cat. No.	Net Price
540	\$3.72

FLAPWHEELS

Whether you are working with metal, wood, rubber or plastic, flapwheels will grind and polish flat or contoured surfaces. Flapwheels are used most effectively as a finishing sander after heavier surface sanding and material removal is completed. As the flaps wear down new abrasive is continuously exposed. This prevents clogging and gives a uniform, constant finish throughout the life of the flapwheel.

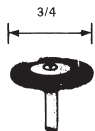

Cat. No.	Grit	Size (Inches)	Net Price
502	80	3/8	\$6.08
503	120	3/8	6.08
504	80	3/16	6.08
505	120	3/16	6.08

GRINDING WHEEL

Use for deburring, removing rust and general purpose grinding. Use with Mandrel 402. **Dimensions:** 7/8" diameter by 1/8" thick.

Cat. No.	Net Price
541	\$2.49

403

404

CLEANING AND POLISHING BRUSHES

Nos. 403, 404. For cleaning and polishing silverware, jewelry and metal surfaces. Ideal for hard to reach places. 1/8" shanks.

Cat. No.	Net Price
403, 404	\$2.49

428
