

BREAKOUT BOX (RS232 TYPE)

This portable, pocket size test set provides access to all 25 conductors of the RS232 interface between the data terminal and the data modem. Ten LED's monitor the status at the source of the primary signals (TD, RD, RTS, CTS, DSR, CD, TC, RC, DTR & TC) and (2) additional LED's scan the dip switches. RS232 Breakout Box, with jumper wires & case.

Cat. No.	Net Price
0493	\$44.89

DIN PLUGS

The DIN connector is used for replacement and/or repair of keyboards, mice, and other input devices. The connectors are solder type.

Cat. No.	Description	Net Price
45-1155-0000	D5 (M) 180°	\$1.23
45-1152-0000	MD8 (M)	1.86
45-1166-0000	MD6 (M)	1.86

RS-232-C QUICK-CHECK PORT TESTER

The GC Port Tester provides an easy method of checking Computer and Terminal equipment to be sure that signals are being generated. Standard RS-232 lines are monitored and LED's indicate presence of data or control signals. A fast way to determine if a problem is in equipment or cables. Male/Female.

Cat. No.	Net Price
45-0580-0000	\$12.51
