Tight Jacketed LC & SC Connectors

06/05 1773441-1

DESCRIPTION

The tight jacketed LC and SC connectors are non pull-proof versions of the standard connectors that are designed for use with tight construction cable. Unlike standard connectors, this design allows the jacket and buffer to move together, reducing the chances of micro-bends and fiber breakage.

APPLICATION

- In Flight Networks
- Shipboard Applications
- Aero Market

KEY FEATURES

- SC or LC interface
- Multimode or Singlemode
- Simplex or Duplex
- Tested using MIL-PRF-85045/16 2.0mm cable

New product

Tight Jacketed LC & SC Connectors (cont.)

PART NUMBER

Part Number:

1828094-1	Connector Kit, LC, MM, Simplex Tight Buffer
1828095-1	Connector Kit, LC, SM, Simplex Tight Buffer
1828129-1	Connector Kit, LC, MM, Duplex Tight Buffer
1828130-1	Connector Kit, LC, SM, Duplex Tight Buffer
1828099-1	Connector Kit, SC, MM, Simplex Tight Buffer
1828100-1	Connector Kit, SC, SM, Simplex Tight Buffer
1828574-1	Connector Kit, SC, MM, Duplex Tight Buffer
1828573-1	Connector Kit, SC, SM, Duplex Tight Buffer
