

The background of the entire page is a blue-tinted photograph of an industrial facility. Three workers wearing hard hats and safety vests are in the lower-left foreground, looking at a large piece of equipment. In the center and right, there are various industrial machines, including what looks like a pump or motor assembly on a stand, and large cylindrical tanks. The floor is concrete with some markings.

BradyPrinter i3300 INDUSTRIAL LABEL PRINTER

No waste. More labels. Less effort.

Picture your ideal label printing scenario – the labels and ribbons snap into place, there's no calibration process, you don't have to throw away blank labels before you actually print one. Ideal is now real with the BradyPrinter i3300 Industrial Label Printer. This mid-volume industrial label printer makes your identification projects easy, fast and affordable. Enjoy a variety of time- and money-saving advantages, including:

- **No waste printing:** With print smart technology, you get auto setup and calibration without throwing out blank labels
- **Fast material changeovers:** Foolproof drop-in label rolls and ribbons snap into place for 20-second material changeovers
- **Full-facility identification:** Complete all of your identification tasks, from wires, panels and products to safety and facility labels, with one convenient and efficient tool
