

# HHF-JFCU

## Automotive in-line fuse holder for ATC blade-type fuses

### Product specifications

| Part Number | Description                 | Fuse size | Voltage rating | Electrical connection    | Maximum continuous current rating | Body material  | Body contact material |
|-------------|-----------------------------|-----------|----------------|--------------------------|-----------------------------------|----------------|-----------------------|
| HHF-JFCU    | Black fuseholder with cover | 3 - 20 A  | 32 Vdc         | 16 Gauge yellow leadwire | 20 A                              | Santoprene TPV | Brass/Tin plated      |

A fuse must be properly and fully inserted into the holder to provide a solid connection. Poor or improper insertion of the fuse can result in failure of the fuse and holder, thus not protecting the device for which it was intended.

### Dimensions—mm

### General specifications

Normal operating temperature: +25°C ±2°C

Storage temperature: -10°C to +40°C

IPx7 rating for exposed locations

### Packaging

Bulk: (500 parts per box)

Life Support Policy: Eaton does not authorize the use of any of its products for use in life support devices or systems without the express written approval of an officer of the Company. Life support systems are devices which support or sustain life, and whose failure to perform, when properly used in accordance with instructions for use provided in the labeling, can be reasonably expected to result in significant injury to the user.
