Part#: 159-RT

Tweezers - Replaceable Carbon Fiber .012" x .011" Tip - Straight
 Will not scratch or marr delicate items

The 159-RT soft replaceable tip tweezer measures 5 inches in length and features ultra-fine tips. The tips are made from Carbofib™, a polymer-based material reinforced with 30% carbon fibers, providing high conductivity (10^2 ohms/sq). Carbofib™ offers exceptional rigidity, tensile and flexural strength, as well as resistance to fatigue, creep, and temperatures up to 249°F. The tweezer bodies are constructed from Neverust® anti-magnetic stainless steel (AISI 316L), making them ideal for handling delicate components.
