

19" Rack Mount Brush Seal Kits

PANDUIT®

SPECIFICATION SHEET

specifications

Unused rack openings shall have 19" rack mount brush seal kits installed to reduce bypass airflow through open spaces in racks and cabinets. Brush seal kits allow front to back cable management while maintaining thermal seal. Brush seals shall be designed of metallic material and contain (4) M6 Phillips screws, (4) M6 cage nut, and (4) #12-24 screws for tapped E-rail mounting. Panels shall be available in 1 RU or 2 RU sizes to enable the blanking of multiple rack unit configurations.

1 RU Panel

2 RU Panel

Brush Seals

1 RU x 19"
(483mm) width

Black: BR1B

2 RU x 19"
(483mm) width

Black: BR2B

technical information

Standards: 19.00" (483mm) width meets CEA-310-E standards

RoHS compliance: Yes

Compatibility: Each blank panel has a hardware kit which contains (4) M6 Phillips screws and (4) M6 cage nut, (4) #12-24 screws for tapped E-rail mounting.

Material (color): Black powder coat using RAL 9005.

key features and benefits

Cold rolled steel material	Installs easily with Phillips screwdriver improving productivity
Ease of cable passthrough	Allows front to back cable management within a rack unit
More effective cable management	Brush dam seals air while maintaining effective cable pass-through
Minimize thermal bypass	Prevents air recirculation within cabinet
Two sizes for horizontal or vertical applications	1 RU or 2 RU sizes can blank out multiple rack unit configurations enabling installer to select appropriate sizes

applications

The 19" rack mount brush seal kits are part of the energy-saving airflow management solutions for smart data centers. They are designed to minimize bypass airflow in racks and cabinets while providing a desirable appearance. The 19" rack mount brush

seal has design features that help to speed installation and is part of the complete range of cooling accessories available from Panduit to help maximize management and control of the physical infrastructure.
