(B) 2. General description and intended use

EMERGENCY STOP control units are electromechanical switching devices designed to protect persons. They are used for instant disconnection to achieve a safe status of machines, vehicles or other equipment in order to avoid or reduce risks or damage to man and machine.

The following standards and regulations apply to their start-up, use and technical inspections without limitation:

- Machinery Directive 2006/42/EC

date: Nov 17, 2020 page: 4/4

Accident prevention regulations / rules for safety

Manufacturers and users of machines provided with EMERGENCY STOP control units are resible for ensuring that the operating instructions are observed and the applicable safety standards and rules complied with.

For the installation and operation of EMERGENCY STOP control devices in line with the intended use, the following requirements must be observed and a risk assessment must be performed:

- EN ISO 13849-1,2015 - EN ISO 13850-2015

- EN ISO 13849-2,2012 - EN 60204-1/A1,2008

(F) 2. Description générale et application conforme aux prescriptions

Les auxiliaires de commande d'ARRÉT D'URGENCE sont des appareits de commutation élec-tromécaniques pour protéger des personnes. Ils servent à couper rapidement les machines, les véhicules et les installations. À les amener dans un état de sécurité fiable pour éviter ou diminuer les risques de dommages corporels et de dégits matériels. Pour la mise en service, l'utilisation et les contrôles techniques, il faut respecter les prescriptions suivantes:

- La directive sur les machines selon la norme 2006/42/EG
- Les règlements de sécurité ainsi que Les instructions sur la prévention des accidents / règlements de sécurité

C'est aux fabricants et utilisateurs de machines où des auxiliaires de commande d'ARRÉT D'URGENCE sont utilisés, qu'incombe la responsabilité du respect du mode d'emploi ainsi que des prescriptions et réglements de sécurité en vigueur.

Pour l'installation et l'exploitation de dispositifs d'ARRÉT D'URGENCE, les exigences suivantes doivent être respectées et une évaluation des risques doit être menée en vue d'une utilisation er bonne at due forma
