Tamper Evident Metallized Polyester Tape (B-438) and High Temp Metallized Polyester Tape (B-565)

For secure identification that indicates if it has been tampered with.

- B-438 tape leaves a “checkerboard” footprint if removed and a checkerboard also appears on top surface of label to prevent label re-use
- B-565 material has a high upper temperature rating and is not tamper evident
- Ideal for product rating plates, product warranty labels and asset identification labels

B-438: Service temp: -40°F to 104°F Application temp: 50°F to 104°F
B-565: Service temp: -40°F to 230°F Application temp: 0°F to 230°F

NOTE: Use black ribbon B30-R4300 with these part numbers. See page 140 for all BBP31 Ribbon part numbers.
