40-992-4K | 4K@60Hz 4:4:4, 3 x 1 HDMI Switcher with IR Remote Control, HDCP 2.2, 3D Compliant

Calrads 3 x 1 HDMI switcher routes high definition video (in multiple resolutions up to 4K@60Hz) and digital audio from any one of the three HDMI sources to a single HDMI output. Three inputs accommodate connection of up to three high definition 4K@60Hz video sources, such as satellite systems and HD DVD players, streaming set top boxes. The output can deliver high definition audio/video signals to a high definition display directly or any other hardware such as A/V Receivers, etc.. Aside from the front panel manual switching, the 40-992-4K can also be controlled via the IR remote that is provided or the switcher. The compact design allows the unit to be easily mounted anywhere. The 40-992-4K also extends the range of HDMI compliant devices by equalizing and re-clocking the HDMI signal. Includes IR Remote control and DC power supply. The 40-992-4K will retain all settings if power is lost.

Specifications:

HDTV Resolutions: 4K@60Hz, 1080p, 1080i, 720p, 480p

Bandwidth: 18 Gbps (Maximum)

ABOUT CALRAD ELECTRONICS

Calrad Electronics has been in the same family ownership for over 60 years. Many of our employees have been with the firm for 25 or more years. Many of our customers have been buying from Calrad for even longer than that. Our manufacturers and suppliers in Asia have known and trusted Calrad for generations. It all started in the 1950's . . .
