

Datasheet

Art.No. R1.100.0233.0

Magnet switch set

safety switch and magnet, manipulation safe, rectangle-shaped design, dimensions LxWxH: 88x25x14mm, normally closed / normally closed / normally open contact, protection category: IP67, cable length: 3m

Art.No.	R1.100.0233.0
EAN	4049088107306
Order unit	1 pieces

Approvals

Technical data

General

Suited for safety functions	Yes
Housing material	Plastic
Number of protected contact energized outputs	2
Type of electric connection	Cable
Cable length	3 m
Construction type housing	Cuboid
Cross-/short circuit identification possible	Yes
Degree of protection (IP)	IP67
Category according to EN ISO 13849-1	4
Type of actuation	Magnet

Output circuit

Max. output current at protected output	250 mA
Min. output current	5 mA
Min. rated supply voltage at DC	5 V
Max. rated supply voltage at DC	48 V

Other

Voltage type	DC
Number of protected semiconductor outputs	0
Type of switch output	Other
