Product overview: Fluke slotted insulated screwdriver

Slotted screwdriver

Full-length, impact proof handle core is coated with soft-grip outer material, hanging hole for extra security and anti-roll handle design. With insulation from the tip of the screwdriver all the way to the end of the handle, it's designed to keep your hand safe from electric shock; certified up to 1000 V AC and 1500 V.

Ergonomic Grip Handle

The ergonomic handle adapts to the user's hand so that it causes less strain and work fatigue while still providing maximum torque during a long day. And the slim, insulated shaft allows access in hard to reach areas.

Three sizes of slotted screwdrivers are available; sold individually or in kits.

- 3/32 blade, 3" shaft (2.5 mm blade, 75 mm shaft)
- 5/32 blade, 4" shaft (4 mm blade, 100 mm shaft)
- 1/4 blade, 5" shaft (6 mm blade, 125 mm shaft)

No matter what you're working on, be safe and grab for an insulated screwdriver. Every screwdriver is individually tested to 10,000 volts and backed by a [limited lifetime warranty](#).

Insulated Hand Tool Lifetime Limited Warranty

Each Fluke Insulated Hand Tool will be free from defects in material and workmanship for its lifetime. As used herein, "lifetime" is defined as seven years after Fluke discontinues manufacturing the product, but the warranty period shall be at least fifteen years from the date of purchase. This warranty does not cover damage from neglect, misuse, contamination, alteration, accident or abnormal conditions of operation or handling, damage or normal wear and tear of mechanical components. This warranty covers the original purchaser only and is not transferable.

To establish original ownership and prove date of purchase, please complete and return the registration card accompanying the product, or register your product on <http://www.fluke.com/registration>. Fluke will, at its option, repair at no charge, replace or refund the purchase price of a defective product purchased through a Fluke authorized sales outlet and at the applicable international price. Fluke reserves the right to charge for importation costs of repair/replacement parts if the product purchased in one country is sent for repair elsewhere.

If the product is defective, contact the authorized seller you purchased the tool from for immediate replacement or your nearest Fluke authorized service center to obtain return authorization information, then send the product to that service center, with a description of the difficulty, postage and insurance prepaid (FOB Destination). Fluke assumes no risk for damage in transit. Fluke will pay return transportation for product repaired or replaced in-warranty. Before making any non-warranty repair, Fluke will estimate cost and obtain authorization, then invoice you for repair and return transportation.

THIS WARRANTY IS YOUR ONLY REMEDY. NO OTHER WARRANTIES, SUCH AS FITNESS FOR A PARTICULAR PURPOSE, ARE EXPRESSED OR IMPLIED. FLUKE SHALL NOT BE LIABLE FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES OR LOSSES, INCLUDING LOSS OF DATA, ARISING FROM ANY CAUSE OR THEORY. AUTHORIZED RESELLERS ARE NOT AUTHORIZED TO EXTEND ANY DIFFERENT WARRANTY ON FLUKE'S BEHALF. Since some states do not allow the exclusion or limitation of an implied warranty or of incidental or consequential damages, this limitation of liability may not apply to you. If any provision of this warranty is held invalid or unenforceable by a court or other decision-maker of competent jurisdiction, such holding will not affect the validity or enforceability of any other provision.
