Features & Benefits

Specifications

Technical Documents

Genuine HAKKO replacement part.

NOTE: The specifications for this part have changed since the introduction of the HAKKO FR-810, however the part number is unchanged. This part is compatible as the replacement heater pipe for the HAKKO FR-810 Hot Air Rework Station, however due to the specification change, the adapter (PN: B5058) is no longer required when attaching older HAKKO hot air nozzles. Please see Product Bulletin PB377 for more information.
