Executive

EN 60529 Degree of Protection IP20 (IP68 Upon Request)

Motion Control Device
ROCKER ACTION COMPACT DESIGN

Materials of Construction:

- Cover is a medium gray Die Cast Zinc material
- Mechanical Interlock prevents both circuits from being operated at the same time
- Operates on the teeter-totter principle
- Pressure on one side opens or closes line, release of pressure returns switch to normal off position, pressure on other side opens or closes circuit, independent of first

Features & Benefits:

- Non-skid Base pad
- Both sides can be wired normally open or normally closed
- All wiring connections are made internally with only a single cord being brought out
- Eliminates costly harness assemblies
- Offers real economy

Options:

- Twin, Triple, Quad & Quint versions available
- Heavy gauge steel guard available
