

Safety Products for Eye, Head and Face Protection

Issue Date 03/01/04

Stylish eyewear that puts safety first.

Introducing the new 3M™ Protective Eyewear 1750, 1751, 1752 and 1760.

The new 3M Protective Eyewear features lightweight frames, a contemporary look and high quality protection.

Features Include:

- Sporty, wraparound design helps provide side protection.
- Strong, polycarbonate lenses are shatter resistant.
- Anti-scratch coating helps keep lenses crystal clear.
- 99% UV protection for safe, outdoor use.
- Each pair of eyewear is individually bagged.
- Models 1750, 1751 and 1752 feature soft, gel-like nosepieces and soft temples with rubber tips for long wear comfort.
- ANSI compliant to help provide limited eye and face protection against flying particles.

Description:

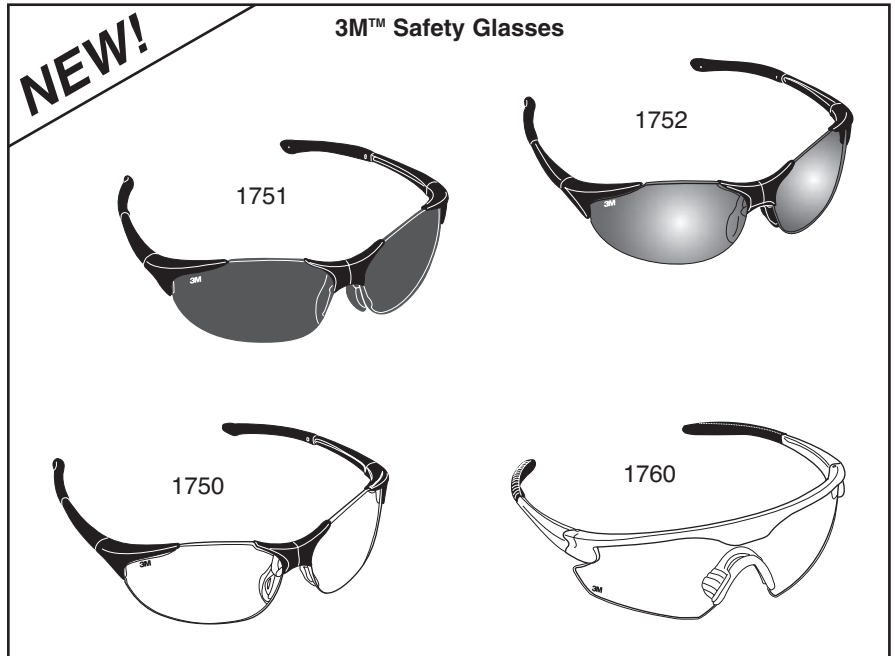

1750—grey frame, with clear lens

1751—grey frame, smoke lens

1752—blue frame, mirrored, indoor/outdoor lens

1760—clear frame, clear lens

All 3M Protective Eyewear models meet both physical and optical requirements of the ANSI Z87.1-2003 Standard as

New 3M™ Protective Eyewear Products — 2004

high impact protectors. New ANSI high impact marking requirements will be phased-in during production in 2004.

3M™ Protective Eyewear products are also available in several other styles and lens options. They offer wearer comfort and safety.

See page 2 for additional 3M Protective Eyewear offerings.

3M™ Safety Glasses

3M™ Safety Glasses are available in a variety of colors and with several lens options. See Ordering Information table on page 5 for color and lens options.

Lens Options

- Clear lenses are not tinted and are ideal for indoor use.
- Amber lenses are tinted to help enhance visual contrast. Recommended for low light applications or other situations where greater contrast is desired.
- Smoke lenses are shaded for greater comfort in bright sunlight.
- Mirror lenses feature a silver reflective finish on the outside of the lens.

3M™ Safety Products for Eye, Head and Face Protection

3M™ Protective Eyewear 1700, 1701, 1702*

Stylish safety glasses that help provide comfortable eye protection. Low-profile, frame-less design.

3M™ Protective Eyewear 1710, 1711, 1712*

Lightweight plastic frames. 4-position adjustable temples for enhanced fit.

3M™ Protective Eyewear 1720, 1721, 1722, 1723*

5-position adjustable temples and soft, vinyl nose pad for comfort. Non-slip rubber head grip for secure fit.

3M™ Protective Eyewear 1730, 1731, 1733*

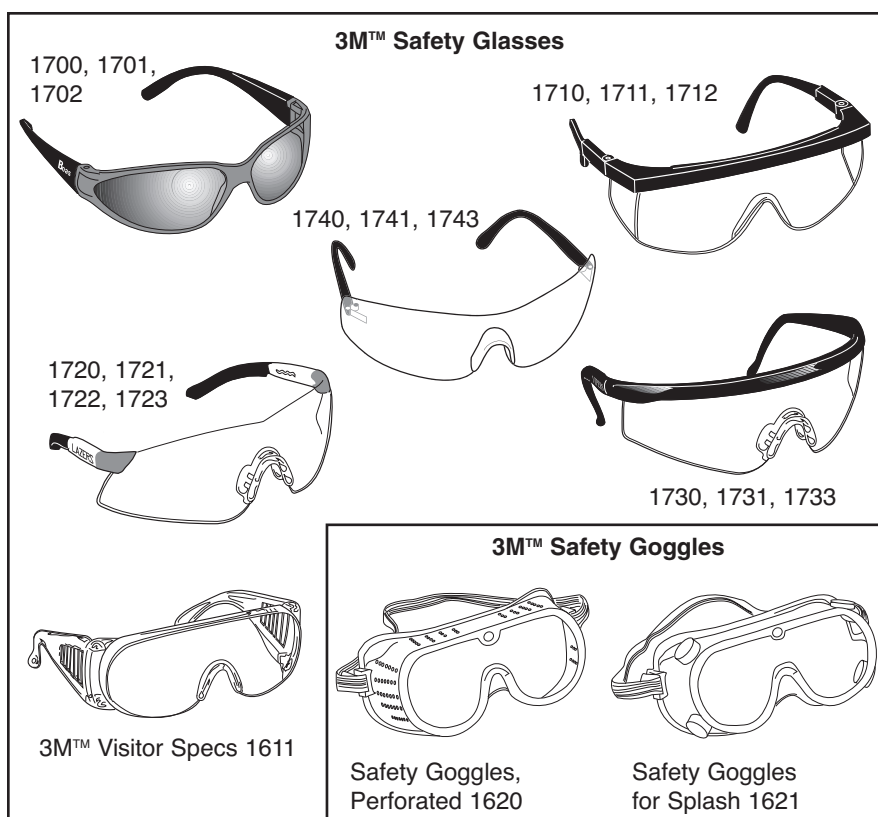

Stylish wrap-around safety glasses. Comfortable fit with 4-position adjustable temple and vinyl nose pad. One piece, hard coated lens helps protect brow and cheek areas.

3M™ Protective Eyewear 1740, 1741, 1743*

Designed with a stylish wrap-around lens. Temples are adjustable with a wire core. A vinyl nose cushion enhances wearer comfort and fit.

3M™ Visitor Specs 1611*

An economical alternative for short term eye protection. Can be worn alone or over prescription glasses. Ideal for plant or job site visitors.

3M™ Protective Eyewear Products

3M™ Safety Goggles

3M™ Safety Goggles 1620*

Multi-purpose safety goggles with perforated vinyl frames for added ventilation and comfort. Helps reduce exposure to a variety of eye hazards including limited impact protection. **Do not use for protection against splash or dust hazards.**

3M™ Safety Goggles for Splash 1621*

Helps reduce exposure to a variety of eye hazards including impact, splash and dust. Vinyl frames allow for excellent fit. Four indirect vents for air flow.

PROTECTIVE EYEWEAR WARNING

3M protective eyewear products help provide limited eye and face protection against flying particles. Misuse or failure to follow warnings and instructions may result in serious personal injury, including blindness, or death. For proper use, see supervisor, read instructions and warnings on the package, or call 3M OH&ESD Technical Service in the USA at 1-800-243-4630. In Canada, call 1-800-267-4414.

* See Ordering Information table on page 5 for color and lens options.

3M™ Head Protection Products

Features of all 3M™ Hard Hats:

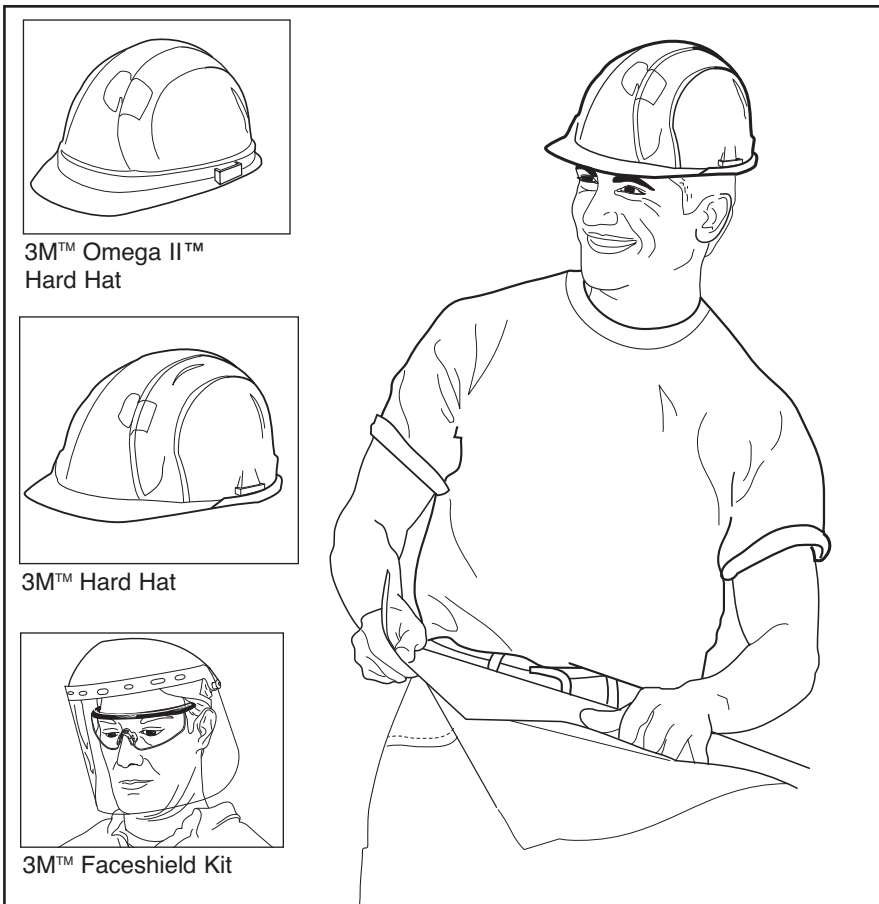

- Available in a variety of colors and with several head suspension options.
- Meet the requirements of the American National Standard for Industrial Head Protection ANSI Z89.1-1997, Type I, Class C, E and G. Certified when headband is installed in reverse position or when hard hat is worn backwards.
- Molded from lightweight, high-density polyethylene.
- Fully cushioned brow pad absorbs moisture.
- 6-point suspension.
- Universal accessory slots accommodate many ear muffs and visors.
- Color options include white, yellow, orange, red and blue.

3M™ Hard Hat*, 1921, 1922, 1923, 1925, 1926

This lightweight, economical hard hat features a short peak and trim profile. 6-point molded, polyethylene suspension. Easy-to-use slide to quickly adjust head size from 6-1/2 to 7-3/4.

3M™ Omega II™ Hard Hat* with Standard Suspension, 1901, 1902, 1903, 1905, 1906

A durable, lightweight hard hat featuring a well-balanced, low-profile design. Comfortable, impact-absorbing 6-point woven nylon suspension. Easy-to-use slide to quickly adjust head size from 6-1/2 to 7-3/4.

3M™ Omega II™ Hard Hat

3M™ Hard Hat

3M™ Faceshield Kit

3M™ Head and Face Protection Products

3M™ Omega II™ Hard Hat* with Ratchet Suspension, 1911, 1912, 1913, 1915, 1916

A durable, lightweight hard hat featuring a well-balanced, low-profile design. Ratchet suspension makes fitting easy and helps keep the hard hat secure in the most physically active jobs or extreme weather conditions. Fits head sizes 5-7/8 to 8. Comfortable, impact-absorbing 6-point woven nylon suspension.

HARD HAT ⚠ WARNING

3M hard hats provide limited protection only. Misuse or failure to follow warnings and instructions may result in serious personal injury or death. For proper use, see supervisor, read instructions and warnings on the package, or call 3M OH&ESD Technical Service in the USA at 1-800-243-4630. In Canada, call 1-800-267-4414.

*Hard Hat part # indicates color (white, yellow, orange, red, blue) and suspension options. See page 5 for options.

3M™ Face Protection Products

3M™ Faceshield Kit 1631

Helps provide additional protection of the face and eyes when protective eyewear is being worn. A cam-lock helps hold the faceshield in place. Features a replaceable, polycarbonate lens for clear vision. Meets the requirements of the American National Standard Practice for Occupational and Educational Eye and Face Protection, ANSI Z87.1-1989.

FACESHIELD WARNING

3M face protection products help provide limited eye and face protection against flying particles. Misuse or failure to follow warnings and instructions may result in serious personal injury, including blindness, or death. For proper use, see supervisor, read instructions and warnings on the package, or call 3M OH&ESD Technical Service in the USA at 1-800-243-4630. In Canada, call 1-800-267-4414.

3M™ Bump Caps

Designed to help reduce chance of minor scrapes and bumps to the head. **Recommended for situations where hard hats are not required.**

3M™ Bump Cap* 1801, 1803

Easy to use adjustable 4-point suspension fits head sizes 6-1/2 to 7-3/4. Available in white or black. Fully cushioned brow pad absorbs moisture and is washable and replaceable. **Recommended for situations where hard hats are not required.** Perforated sides allow for air circulation and ventilation.

*Bump Cap part # indicates color. See page 5 for options.

BUMP CAP WARNING

Bump caps do not provide protection against impact from falling or glancing objects. They do not protect against electrical hazards. Bump caps do not meet the requirements of ANSI Z89.1. When head protection is required, wear a protective hard hat or helmet which meets the requirements of ANSI Z89.1. Misuse or failure to follow warnings and instructions may result in serious personal injury or death. For proper use, see supervisor, read instructions and warnings on the package, or call 3M OH&ESD Technical Service in the USA at 1-800-243-4630. In Canada, call 1-800-267-4414.
