Description

Technical Specs

Extended Information

Platt now offers our molded pallets for our super sized tool cases.

All purpose molded pallet with 22 pockets and NO turnbutton. Our molded pallets have just the right amount of give, yet toughness to be a pleasure to work with.

Pallets can be ordered separately by ordering the individual pallet letter.

All Platt standard size stock tool cases come with molded pallets. The top pallet is always pallet C. The bottom pallet is always B. If these pallets are not appropriate for the users tools, Platt will substitute the molded pallets of users preference at no charge, or sewn pallets for a small additional cost. If you wish to change the pallet(s) in a stock case, simply change the pallet letter(s) after the case letter, i.e. 600T-KL. (First letter is top pallet, second letter is bottom pallet).
