DescriptionTechnical SpecsExtended Information

Field service pallets designed primarily for the installation and maintenance of office copiers and office machines with 19 pockets.

Pallets can be ordered separately by ordering the individual pallet letter and all of our sewn pallets can be furnished as top pallet or bottom pallet. Turnbutton comes on top pallet. This pallet available in a standard size by dropping the "S" from the part number i.e. "H".

Our sewn pallets have strong pockets and pouches to hold a wide range of tools and parts. All outer edges of our pallets are sewn through our heavy backing material to prevent the separation you might have experienced in pallets of lesser quality.

Platt can custom design sewn pallets in a broad range of configurations. Please visit our custom pallet section here for more details.

NOTE: If ordering just the pallet, please specify with or without turnbutton.
