(you will need to have Adobe Acrobat installed on your system to do this)

APPLICATION

Circuit guard plugs snap into **JAX**® (bantam) jacks eliminating accidental or unauthorized insertion of a plug into a critical circuit. The circuit guards plugs do not actuate the jack springs. These plugs seal the jack bushing and provide an additional means of circuit identification.

Circuit guard plugs are available in three different designs: Series TT512, Series TT513 and Series TT514 designs are molded thermoplastic and are available in the following colors: red, black, green, blue, white or yellow.

SERIES TT512

TT512 circuit guard plugs cover an individual jack opening and insert to an virtually flush position with the face of the panel.

SERIES TT513

TT513 circuit guard plugs are similar to the Series TT512 except the button extends .219 inches from the face of the panel for easier removal.

SERIES TT514

TT514 circuit guard plugs cover both the IN and OUT jacks of two adjoining circuits while leaving the monitoring jack exposed for circuit testing. The four jack circuit guard plugs also include a matte finish white plastic marking strip and a clear extruded plastic window for additional designation.

SPECIFICATIONS

TT512 and TT513Molded thermoplastic in colors.

TT514:
Base:Molded thermoplastic in colors.

Marking Strip:Matte finish white plastic.

Cover:Clear extruded plastic.

ORDERING

1. Order by part number from table.
2. Contact Switchcraft for any special order items.

Part Number	Part Number	Part Number	Color
TT5121	TT5131	TT5141*	Red
TT5122	TT5132	TT5142*	Black
TT5123	TT5133	TT5143*	Green
TT5124	TT5134	TT5144*	Blue
TT5125	TT5135	TT5145*	White
TT5128	TT5138	TT5148*	Yellow
* Includes base, marking strip & cover.
