Complete Artis Tweezers Set

Reimagining The Tweezer

The tweezer is one of the longest standing and most important staples of every work bench, and Aven's innovative **Artis Tweezers** have set a new precedent for precision. Aven's cutting edge design features a **angled bend** at the end of the tip, which provides a softer overall grip with a large surface area that **reduces hand fatigue**, enhancing productivity. The durable tweezers are protected by an attractive ESD safe coating, and the **highly polished stainless steel tips** with rounded edges allow operators to handle very fine wire, miniature parts, electrical components, and other delicate materials in a confined space without risk of damage.

ARTIS

Reimagining The Tweezer

Angled Bend
Reduces hand fatigue
increases surface area

Mirror Finish Stainless Steel
Handle delicate materials
without scratching or marking

ESD Safe Coating
Attractive coating
protects the tweezer grip

Reduced Hand fatigue. Increased Surface Area.

Artis Tweezers feature an angled bend at the end of the grip. This patent-pending design aligns the tips parallel to each other, providing a **fatigue-reducing grip and a larger surface area** to work with.

Highly Polished Stainless Steel Tips

Highly polished stainless steel tips with rounded edges prevent you delicate materials from being scratched or marked.

ESD Safe Coating

Attractive ESD Safe coating protects the tweezer grip
