The CLI T sleeve is a high-quality, transparent sleeve for marking conductors and cables with cross-sections up to 75 mm². The CLI T sleeve is available in four lengths so that labelling with long character strings is possible. The transparent sleeve optimally protects the inlay tag against outside influences. As inlay tag the TM-I marker from the MultiCard portfolio be suitable. The CLI T sleeves should not be used together with the MultiMark TM-I inlay tag. We are currently working on an optimal usability of the TM-I tag from the MultiMark series.

- Wider cross-section range per sleeve
- A special flexible bellow profile ensures a wide application range
- Easy insertion of the TM-I tag into the sleeve pocket before or after connecting the conductor
- Available in five lengths
- Not suitable for labelling with P-Ink or STI pen
