ClipCard device markers in MultiCard format are used for labelling electrical installations and switchgear systems, and offer an interesting alternative to engraving. Thanks to the proven MultiCard format, labelling is possible with PrintJet PRO, the MCP Plus plotter, MCP Basis and MC-Mobilo.

- Highly resistant printing quality when using the PrintJet as a substitute for engraving
- Universal fixing
- Carrier (screwable or with cable ties)
- Tag rail (self-adhesive or screw fixing)
- Or self-adhesive tags

For custom printing: Please send us a file of our labeling software M-Print PRO or M-Print PRO Online (without installation) for your labeling specifications.
