

13-Sep-2023

PCN #: P-23-025115

Subject : Power Relay F4

Description of Change : Dear Customer, we hereby inform you about a replacement of the production tool for the TE component part "Bracket" of the Power Relay F4 mentioned below.

In order to ensure the continuous supply of the Bracket, TE Connectivity will introduce and qualify a second source material (EN 10143- DX51D+Z275 MAC GK / Material:1.0226) for the Bracket. The customer characteristics will not be impacted. These improvements will be validated by TE and this PCN is an informative PCN according to VDA Trigger Matrix 17 and 10.

No PPAP will be submitted for these improvements.

Reason : Product improvement.As a result of our continuous strive for quality and supply improvements in our production, we hereby inform you upfront about a new tool, which is under construction in order to meet all specification requirements to replace the current one, which is EOL. An alternative material will also be released for this purpose.
